

To find out more

Resource library

There are many reference materials and documentation on the National Broadband Network (NBN) and related issues.

The NBN Co Corporate Plan

The Corporate Plan, released in December 2010, includes detail on NBN Co objectives and targets, NBN design and construction, products and pricing as well as funding and governance.

The Plan is available on our website under Latest Announcements, December 2010.

Wiring and end-user infrastructure

The Communications Alliance has published the NBN End-User Premises Handbook on its website under Publications, National Broadband Network, June 2010.

The handbook describes:

- The main components of an NBN premises connection and the key details surrounding each component.
- The practices and guidelines for the installation and operation of the NBN in a home or business and other service site.
